Allowable Subject Matter

1. Claims 3-17, 24-25, 27-29, 31-33, 35-37, 39-40, 42-43, 45-46, 48-49, 51-52, 54-55, 57-58, 60-61, 63-64, 66-67 allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a vehicle mirror display. Each independent claimed the uniquely distinct features in a specific structure "a display device mounted in the vehicle's mirror comprising a substrate, a first thin film transistor formed over the substrate, a pixel electrode electrically connected to the first thin film transistor, a light emitting layer adjacent to the pixel electrode, a second electrode adjacent to the light emitting layer and a cover member covering the second electrode and fixed to the substrate by a sealing material, and a driver circuit comprising a second thin film transistor formed over the substrate and operationally connected to the first thin film transistor" in combination with the manner claimed. The closest prior arts, Bauer et al. [US 6,509,832], Zhang [US 5,949,107], Fujita et al. [Us 5,962,962] and Marcus et al. [US 6,124,647] teach similarly features, however, they fail to show the uniquely distinction features above. Therefore, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
